How to open a dataset

A simple guide on how to open a dataset

In order to open a dataset with ClinicalVolumes, the dataset must:
1) Be in DICOM format
2) Be in a folder or directory

Once using the command "Open DICOM Directory ", <u>select the folder which contains the DICOM files and not the individual files !!!</u>   Select "Choose"

Open DICOM Directory

Select the folder containing the DICOM files

Press "Choose"
